## Boomtown/Hometown

What the numbers say about income,  
housing and education in Cambridge today

**A new report by the Cambridge Community Foundation** draws attention to three powerful trends now shaping our city's future: increasing income inequality, rapidly rising housing costs and persistent educational disparities. Where are these trends taking Cambridge? Can our city—with its booming innovation economy and exceptional community assets—keep its historic commitment to social justice and create a future in which prosperity is shared across the entire community?
